- Damaged or broken tool detection.

Marking Characteristics

- Number of lines : 2
- Number of characters : 21
- Characters height: 6 mm
- Font : 2
- Strenght : 5
- Marking cycle : 20 s

TECHNOMark's SOLUTION:

Automatic production line for the marking of rear axles. After the last operation of welding, a robot present the part in thrust under the MULTI4's marking head, then the machine receives the order of marking and the marking is carried out. Once marking is finished the robot withdraws and deposits the axle on a transfer line.
